SUICIDE INTERVENTION TRAINING

AFTER CANCER AND HEART DISEASE, SUICIDE ACCOUNTS FOR MORE LIVES LOST THAN ANY OTHER CAUSE OF DEATH. Suicide IS Preventable!! – the question is: do you care enough to make a difference in someone else's life?

WHAT IS ACT?

ACT Suicide Intervention is a daylong seminar taught by a master trainer. The concepts taught in Warrior 180 Foundation's ACT Suicide Intervention Training have life applications that can become a second nature to helping those you come in contact with. The full day of training guides participants thru a hands on and interactive application process giving them an understanding and ownership to apply these lifesaving skills. ACT training is not a lecture series but rather offers individual participation, scenarios and video to keep everyone involved. ACT Training Addresses:

- Statistics
- Myths vs Facts about suicide
- Risk factors to watch for
- Warning signs to be aware of
- Safety contracts

WHO ATTENDS ACT TRAINING?

Instruction is available for Jr/Sr High students and older, business groups, church groups, veterans' organizations, schools, law enforcement, social workers, those in the medical field . . . and more. Warrior 180 Foundation is able to trailer this program to your specific group or situation.
